Holly's - Your Life, Your Store

Company Description

Holly's Inc. is a mid-range chain of department stores owned by Mr. Farmani. It has been an innovative leader in the fashion industry for over 20 years. The company was founded by Mr. Farmani and his late brother Ernesto in 1990 as a clothing factory.

Since then, Holly's has developed into a global leader, presenting the latest fashion. In 1995 we established our first subsidiary in Canada, and others followed. Our commitment has always been to variety in our apparel, and to you, our loyal customers.

More Recent Corporate Highlights

Philosophy and Mission

The move from being a clothing factory to a department store has proved to be a very exciting part of our development. We have gained valuable experience and expertise, and we are proud to have grown into a multinational company. We started out as a small factory in Toronto, Canada, but we now feel we have a larger worldwide mission. Holly's philosophy has always been to be "the world's favourite for American style". Over the years, this mission has kept us focused on making garments that not only exemplify our lifestyle, but enhance the ability to live it.

Examples:

- *Blue Banana Inc. **is a privately-owned** chain of department stores **owned by** Marco di Marco.*
- ***Its headquarters is in** Canada.*

- ***It was founded in** 1995 **by** Angelo Mangiari.*
- ***It manufactures** apparel.*
- ***Our commitment has always been to** deliver superior customer service.*

Using the Present Perfect and the Simple Past Tense

You use the **Present Perfect** to show a **connection** between the **past** and the **present**. If the situation is still relevant in the present, we often use **for** or **since** to say how long the situation has been true.

- *It **has been** an innovative leader in the fashion industry **for** over 20 years.*
- ***Since 1990**, Holly's **has developed** into a global leader in the latest fashion designs.*

Sometimes the speaker does not mention the exact time something took place. The **Present Perfect** is used because the action happened at an indefinite time in the past. In this case, we often use already, ever, never, always, yet or just.

- *Our commitment **has always** been to diversity, to our apparel and to you, our loyal customers.*
- *We **have already** established Holly's US subsidiary.*

Unlike the **Present Perfect**, the **Simple Past** refers to a specific event completed in the past and tell you when it happened.

- *The company **was founded** by Giorgio Farmani and his late brother Ernesto Farmani in **1990**.*
- ***In 1995** we **established** our first subsidiary in Canada.*
